

Dear Mr Weaver

Please do not underestimate the effects that the Wedding Venue is having on me and my family.

The stress of having no control of people travelling across our land and the risks that brings to both us and to them is overwhelming.

[REDACTED] I am constantly in a state of anxiety, not just for my family but also worrying how we can mitigate against a law suit involving customers of another business, whom we have no control over, hurting themselves in some way on our land. It is an impossible situation for us which is causing us real grief.

Please ensure that my email is passed on to who ever is going to be responsible for the decision on this application.

Thank you

Kind regards

[REDACTED]
