Description of Work to be carried out on one Ash tree with TPO 0560 At 3 Latchmore Gardens, Cowplain, Waterlooville PO8 8XR

We have taken advice from several Qualified Tree Surgeons and they all recommend the following work to be carried out in respect of the ongoing tree health and safety, plus protecting our property by virtue of the tree branches on the southern aspect being very close to the roof of the property.

We have observed grey squirrels, jumping onto the roof recently, which gives us considerable concern about any future damage that could occur to our property if no action is taken.

We are at present suffering from a considerable increase in the number of grey squirrels that are in the vicinity of our rear garden causing damage to the trees and the garden generally.

Work requested for planning approval:-

1 A reduction of 2meters to the southern aspect (towards the house), to protect the house from any future damage whilst maintaining the Health and safety of the tree.

2 A reduction of approximately 3 meters to the west side with an overall crown reduction of 2-3 meters. This action is to take the recent growth back to the previous pruning in 2011 and maintain the crown shape plus the health and safety of the tree.

3 Remove any dead wood from the tree and open up the crown centre to allow light into the garden. This also would maintain the health and safety of the tree.
