APP/15/01355 Tamarisk, Ferry Road, Hayling Island PO11 0DG

I am writing as a resident of Hayling Island, to oppose this planned development

My objections are

1. Over development of the site. A two storey, upside down, flat roofed, four bedroom house is hardly a 'slightly larger' development from a one bedroom, flat roofed bungalow. Its a massive increase in size.
2. It should not be extending to the north of the building line of adjacent property
3. Northward facing balcony and spiral staircase would invade the privacy of neighbouring properties
4. Viewed from inside Langstone Harbour, looking south, the planned development would look totally wrong for the site. A bungalow of similar size and construction to the adjacent property would be more suitable.

Yours sincerely

Michael Wright-Anderson
