Subject: 2a Seagull Lane

Hi Selina

I also have had another thought! Tealwoods screen printers that is now where 1a Seagull Lane stands was empty for two years with no one wanting to rent and it was turned into housing, also the weaver mabb factory in North Street has also been empty for a few years with no business wanting to take over the building, with the amount of standing empty warehouses and business at the moment I can't see anyone else wanting a non existent structure.

I am getting really concerned as through Covid my business has suffered and I have to do something with the land? I had never thought it would be so difficult to do something for young boxers.

Warm regards
