Dear Sir

Reference APP/17/00829

With reference to the planning application above I am concerned that they are asking for planning after having been turned down on several occasions and the reasons given before haven't changed.

Mengham Park has had a new play park built so is used by more children now and I think this would be a safety issue if access to the ground is agreed. The trees which have TPOs are still there which means they have to situate the building in the corner of the plot which is right by my boundary which is taking my privacy away.

I hope these comments will be taken into consideration

Yours faithfully
