

23/65 Sea Front

Hayling Island PO11 0AL

15 September 2017

I have been contacted by the Head of Property representing Lidl to confirm that I was delighted by the prospect of a Large Food Store being considered for construction on Hayling Island.

Although we do have a few excellent shops on the Island, choices are limited and, invariably, it is necessary to travel off the Island to obtain required items.

With all the new housing development taking place here, stores of this nature would be of great benefit to many residents, especially to those unable to travel too far and without online facilities.
