Dear Sir/Madam

Site Address: 2 Whitbury Road / Garage.

My Comments regarding above proposal are as follows.

- 1) Appearance - With a flat roof and no windows this building looks like a wartime bunker. It can be seen from ALL directions and has no redeeming features!
- 2) Safety. Plan shows garage being built along parallel wall of property in front garden. This garden plot juts out beyond parking already in situ. Cars exiting Nursling Crescent into Whitbury road have to travel on the oncoming

2

Contd:

side of road due to residents parking on the "odd" number side (No 75 has 3 vehicles) and no garage or home parkis)

If the garage is built as plan shows vehicles exiting into Wintsbury Road (turning right) or Vehicles coming down Wintsbury Road from Prospect Lane cannot see what is exiting Nuding crescent causing a risk of collision.

3) overall appearance of this garage and its siting takes nothing for the appearance or original plans for area. Surely a siting adjacent to house would be better than a huge brick block protruding on a corner.

yours sincerely
