For the attention of Mrs Ackworth

Planning application no. 16/00457 21 Grove Road

We wish to register our objection to the proposed opening of the retaining wall onto Grove Road to include gates which appear to open outwards across the footpath. This obstruction would force pedestrians into the road whenever they were in use including children walking too and from school.

At the same time, drivers coming out of the property would not be able to see any approaching pedestrians until the car was actually across the footpath. In any event the existing opening onto Town Hall Road has plenty of room to turn cars around if needed.

Regarding the dormer windows, the privacy aspect doesn't affects us personally, but, it will change the character of the building which is after all in a conservation area and will not fit with the existing houses.

Yours faithfully,

H Crossley
J Crossley
