Dear Sirs

Re: Householder Application for Planning Permission at above address

Please find enclosed my application for Householder Planning Permission for a single storey extension to a dwelling located at 25 Gilbert Mead Hayling Island, together with cheque for the required fee.

The extension which is the subject of this application falls within Permitted Development guidelines and Planning Permission is sought as there is a covenant in place, which the Covenant holder has confirmed they are willing to lift provided that Planning Permission is granted. Building Regulations approval has already been granted and is referenced within the application.

If there is any further information which you require to complete your deliberations, I am at your disposal.

Yours faithfully

Householder
