

Attention to Mr D Eaves

Further to my telephone conversation regarding the ridiculous application APP/16/00668.

As the Havant Borough Council is aware to allow further traffic to enter the Langstone main road is appalling. Safety issues are already at extremely dangerous levels.

Increasing number of traffic.

Continued traffic u turning into Langbank Close in a dangerous manner with no thought of people /bus stop /residents /school bus pick up /people crossing the road /access to the other side of the road /the nursery on the main road.

Resident leaving home to go to work /pleasure having no sight of oncoming traffic from Hayling Island.

Indeed residents driving home along Langstone road who require to access their homes are constantly harrassed in a dangerous manner ,when all one wants is to get home safely! !!.

Residents in Langstone are at risk !!!

For David Eaves to state he has not seen the application is appalling! !!!.

To not inform all residents of Langstone on the proposed additional traffic, when this potential application will cause further dangerous safety issues, Beggars belief.

Indeed Havant Borough Council have already changed the refuse collection to a time when traffic is not as prolific. !!!!

Havant Borough Council is negligent in providing safe services re the development of the hotel /pub /restaurant /tech park.

When are you Havant Council going to take responsibility ?.

We Mr and Mrs Jones

1 Langbrook close

Langstone

Havant

PO9 1RS

Absolutely object to the proposed application .

Regards

Sandra Jones
