Regarding APP/18/00151 Planning Application.

To Ms R Ballam.
March 2nd 2018

Dear Ms Ballam,

We are aware of the planning application as above.

This looks similar to the main house, and will be easily seen every time we go past by foot or approach the main road by car.

We were very surprised that the main house was built in a design that doesn't fit in with the area.

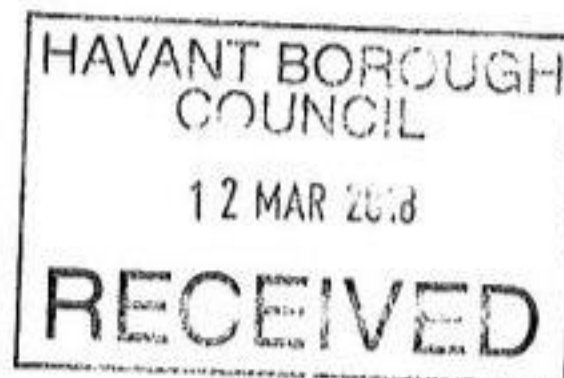

It would be such a shame if another similar building was allowed to be built, it seems big and will block out the skyline.

Cant it be smaller and in a better design that suits the area?

Please consider this as an objection to it being built.

Yours Sincerely,

Terry Lay
