Rooks Farm Development

Dear Sir

As a resident on Hayling Island I am against the development of Rooks Farm for the following reasons:-

1. There will be at least a further 200 cars on the island which after the fiasco of the road problem earlier last week when it took late morning traffic some three hours to leave the island.
2. There is not the infrastructure in place to take all these houses.
3. I do not believe that the services (gas, electric etc.) would be able to cope with the extra load put on them.
4. It was also stated in the Islander about the land not being good for development.

Until the infrastructure is improved on the island by that I mean access, services etc. then planning should not be allowed to go ahead. If permission is granted then I will know that the lunatics will have taken over the asylum.

Sincerely

C.G.Lewis
