To whom it may concern,

We have recently received the proposed plans for 76 London Road's additional storey extension and we would like to advise, that as their neighbouring property [REDACTED] we do not have any objections to make.

We do not feel, that it impacts our privacy or overlooks our property any further than currently.

We would request that if any access is needed to the rear of the property, that they are conscious this is where our vehicle is parked and we need regular access,

Please feel free to contact us, if you need any further details,

Yours faithfully,
