Subject: Fw: 193 London Road childrens home

Hi I have just received this from a local resident as well as many others I want this to come before planning to have it refused there will be a declaration of residents who do not want as well as me They would like to have a say on the matter in the plaza or a room of your choice before the date mention in this paper .This property has only three parking spaces if they start parking all up the road we are going to see accidents happening as it is right on the corner .This is also a residential area not a place to put a business of this kind right on the main road . many thanks

Cllr mike sceal.
