Proposal: Replace flat roof on garden shed with dual pitch tiled roof with gable ends.

Case Officer: Mr Joseph Toole.

Title: Mr

Stance: Object.

My Comment:

The proposed new roof is not in keeping with height, design, material, appearance of any other garden sheds in the vicinity. The high pitched, gabled roof will therefore look out of place and unsightly being so high and close to neighbouring gardens. The gable wall material has not been stated within the application. As ext. walls are of painted rough concrete block, the gables will presumably be the same which will certainly look unsightly and spoil the outlook. S elevation drawing indicates a surrounding lower flat roof supported off boundary fencing, discharging onto neighbouring gardens.
