LAND SOUTH OF LOWER RD APP/19/00427

Dear Sirs

I wish to once again express my concerns regarding the proposed development south of Lower Rd Old Bedhampton.

We have in recent years seen increased traffic in Lower Rd be^{it} for use of access to commercial traffic delivering to business premises at the cul-de-sac end of Lower Rd (previously for farm use), or motor cycles bicycles short cutting through from Farlington to Havant and vice versa.

Bearing in mind Lower Rd has been established well over a century and a D Category road intended only for light traffic and formerly horse & cart, elderly pedestrians and children are at increased risk of accidents given that absence of pavements heightens the hazard, should permission be granted to build 50 more dwellings.

If not on the basis of aesthetics, surely health and safety is good enough reason why I vehemently object to further developments in Old Bedhampton.

Yours Faithfully
