Dear Sir

I thank you for informing of the proposed development adjacent to 132 Havant Rd.
My objections to this further development are as follows:-

There are already a number of small businesses active on site. These cause traffic disruption on the already busy Havant Rd. and noise.

If this were to be increased further above, it would be totally out of order, as it is an industrial site by stealth. This should not be allowed to go ahead as it is an industrial site in a residential area.

Yours faithfully
