Flat3 Boxgrove
392 Seafront
Hayling Island
P011 9RJ

6th January 2016

As the owner of Flat3, I would like to object to the proposed planning for Flat2.
These flats are all owned by each of the 5 residents, and the 2 front ground floor flats have a patio and the other 3 flats have a balcony.

One important consideration when I purchased my first floor flat some 10 years ago was security. I personally felt safer above the ground and in the knowledge that it would be difficult to break into the ground floor flats given their limited access points.

if they need to put anything outside they use the lift to go down to the ground floor and walk round to the communal area. As the area potentially affected is communal, all residents should be in full agreement before changes can be implemented.
For these reasons I object to the proposals put forward by the owner of Flat 2.
