

16TH October 2020

Your Ref: APP/19/00768

Dear Lesley,

We would like to draw your attention to the surface water drainage system that has served our bungalow since it was built. Three of the five soakaways are positioned to the north of our property in the strip of land earmarked for access to the proposed development. We do not feel it would be unreasonable to have a written assurance from the developers that the integrity of our soakaways will not be compromised during and after construction of the site.

Yours sincerely,
