5 Continued

The proposed photography studio requires a minimum internal height of 3 metres to allow for lighting and backdrops to be out of shot. We first had a pre-planning meeting in September 2016, prior to buying the bungalow at 40A Lovedean Lane, where we discussed the idea of increasing the height of the garage/workshop that was already on site, and building a double garage to the front of the bungalow. We were told that we definitely couldn't build anything to the front, and would have to have the workshop either to the side or to the rear of the bungalow. The officer was unable to guide us on what height would be acceptable for planning approval.

We originally had plans drawn up for a flat roof, to mitigate the impact of the building on our neighbours to the rear. We met with Tina Pickup to discuss the plans, and she advised us that it was unlikely to get planning due to the height of the side wall, and the impact on the neighbour that side. She advised us to have a pitched roof, hipped at both ends. The plans were changed, accordingly. Planning permission was granted for the studio/office/workshop, (reference APP/17/00615), and building work was started, reaching floor level. However, although the planning approval had made reference to the site sloping down to the north - towards the fence dividing our land from our neighbours to the rear - which we took to be acceptance of this fact, and acknowledgement that the foundations would have to take this slope into account, we have now been instructed to stop work, as the necessary, raised height of the foundations at one end was not shown on the plan. It was drawn as though the land was level. This discrepancy wasn't brought to our attention until queried by one of the neighbours to the rear, who, we believe, complained to his councillor.

The poor condition of the soil required extensive groundworks. An unfortunate side effect was the removal of trees and screening to accommodate the plant and machinery. This was as much of a shock to us as to our neighbours. We have met with the neighbours immediately behind our garden, [REDACTED], who will be most affected by the studio, and discussed various options to mitigate the impact, including putting a flat roof over the workshop to the rear, and having a barn end roof over the studio. However, this wouldn't change their view to any great degree. Our plan, agreed with them, includes increasing the height of the rear fence with trellis, and screening with bamboo plants. The other neighbour, [REDACTED], was unable to join us for the meeting, but we have been in contact with him in an attempt to get his input on the two design options, which would satisfy the studio height requirement. He hasn't commented on the designs either way.

The original studio/office/workshop design, which we thought had received approval, was, and still is, our favoured design, as we think it's more aesthetically pleasing for all. Mr & Mrs Slark, who own the house immediately behind our garden, have no objection to it, as, over time it will be screened by the planting. We are also dealing with the overgrown trees, plants and brambles at the rear of our garden, which has been a problem to them in the past. We hope that you will grant us permission, once again, to continue the build to this design, with the plan corrected to show the raised foundation at the foot of the slope.

9. Materials

If applicable, please state what materials are to be used externally. Include type, colour and name for each material:

13. Biodiversity and Geological Conservation

To assist in answering the following questions refer to the guidance notes for further information on when there is a reasonable likelihood that any important biodiversity or geological conservation features may be present or nearby and whether they are likely to be affected by your proposals.

Having referred to the guidance notes, is there a reasonable likelihood of the following being affected adversely or conserved and enhanced within the application site, or on land adjacent to or near the application site?

a) Protected and priority species:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

b) Designated sites, important habitats or other biodiversity features:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

c) Features of geological conservation importance:

- ☐ Yes, on the development site
☐ Yes, on land adjacent to or near the proposed development
☒ No

14. Existing Use

Please describe the current use of the site:

GARAGE, WORKSHOP + OFFICE,
SINCE DEMOLISHED.

Is the site currently vacant?

☐ Yes ☒ No

If Yes, please describe the last use of the site:

SLAB BUILT, AS PER PLANNING
APPROVAL APP/17/00615. HALTED
DUE TO SLOPE NOT SHOWING
ON ORIGINAL PLAN.

When did this use end (if known)?

DD/MM/YYYY

(date where known may be approximate)

Does the proposal involve any of the following?

If yes, you will need to submit an appropriate contamination assessment with your application.

Land which is known to be contaminated? ☐ Yes ☐ No

Land where contamination is suspected for all or part of the site? ☐ Yes ☐ No

A proposed use that would be particularly vulnerable to the presence of contamination? ☐ Yes ☐ No

15. Trees and Hedges

Are there trees or hedges on the proposed development site? ☒ Yes ☐ No

And/or: Are there trees or hedges on land adjacent to the proposed development site that could influence the development or might be important as part of the local landscape character? ☐ Yes ☒ No

If Yes to either or both of the above, you may need to provide a full Tree Survey, at the discretion of your local planning authority. If a Tree Survey is required, this and the accompanying plan should be submitted alongside your application. Your local planning

16. Trade Effluent

Does the proposal involve the need to dispose of trade effluents or waste? ☐ Yes ☒ No

If Yes, please describe the nature, volume and means of disposal of trade effluents or waste.
