Dear Sirs,

Planning Application Ref: PP 09412832
Works to Trees at 35 Silverdale Drive

With reference to the above planning application (already submitted online), I now enclose a sketch-plan of the site of the 2 oak trees in question at my property, both of which are subject to TPOs. Please note the plan is NOT to scale. Also I enclose a photo of the trees taken from the ground. The work requested is crown lift on both trees, also please note the following with regard to these works:

Crown to be raised to 2.5 metres – lower branches to be removed as many are only 1.5 metres from the ground.

These trees have not been trimmed for some considerable time and are only 2 metres apart, therefore they are severely impacting one another, meaning that neither is able to grow properly.

Please note from the photo the excessive overhang of the left-hand tree (T1 on sketch-plan) on the adjoining property (33 Silverdale Drive) by 6.5 metres, causing considerable nuisance to the owners of No 33.

There is also a nuisance factor of excessive acorns and leaves being shed by both trees during the winter months..

Yours sincerely,

A black rectangular box redacting the signature of Neil Browning.
