Dear Madam,

REF:APP/18/00724

We wish to make the following comments against approval of the above application -

- 1) Change of use of land to a Wader and Brent Geese refuge area - The only way this could be successful is for the area to be properly managed so that it will be suitable for the birds to rest and feed. Who is going to be responsible for providing this service? Or will it be allowed to revert to useless scrub land.
- 2) The provision of 195 extra houses anywhere on Hayling Island would result in approx. 400 additional vehicles on our already congested roads. As most of the new residents would need to work off the Island this would cause major congestion particularly at peak times, on the only route off the Island. If extra houses must be built on the Island they should be built as near to the A27 as possible, rather than off Sinah Lane.
- 3) What plans are in hand to improve the already overloaded systems - roads, drains, water supply, vital health services.

Yours faithfully
