Churchills

Why you think permission should
or should not be given

I think permission should not be granted due to the lack of parking spaces in the surrounding area, and reduction in shopping facilities in the area and on the island. In my row of shops we have limited parking spaces for our customers which will become even more of a problem should this application be allowed. With the closure of the Hayling Billy public house, the area will become predominantly residential, meaning the existing businesses will not only struggle to continue trading but parking will become even more of an issue. At peak school times the current Hayling billy car park and pullingers car park are struggling to cope with the amount of traffic and if taken away, this becomes more of an issue for parents to drop their children off at school. As a business owner in the area I would prefer to see more of a commercial development to bring people to the area and keep people shopping on the island. The island has a lack of shops currently and with the additional developments in Tourneberry and West town, there is a now a greater need for shops on the island more than ever.
