Re Planning Application APP/17/00037; Extension at 17 Sea View Rd.; Attn Miss H Pitney

We have no objections in principle subject to the following being covered in any grant:

1. Sewage and surface water from the new annexe shall be led into the drainage of the existing building.
2. The owner and his contractors shall be prohibited from burning on-site unwanted materials from clearing, excavation and construction. For months following purchase of the 17 Sea View Road property the current owner was almost daily burning (often noxious) rubbish from renovation work, making it impossible for neighbours to have open windows or to dry washing outside. This was not only a discomfort but added considerable expense and environmental damage by forcing us to use tumble driers even on warm sunny days. This behaviour must be prevented for any future work the owner carries out on his plot.

3. No noisy excavation or construction work shall take place before 08:00 or after 18:00 on any day.

Yours faithfully

N N S Waller
