Proposed Tree Works

14 February 2016

Dear Sirs

I refer to the attached consent form in relation to reducing the crown of an ash tree by 30% and would comment as follows. This consent applied to the western of the two ash trees present in my garden, however the eastern ash tree, which was considerably smaller, has now grown considerably larger and I thus wish to apply for a similar consent in respect of this tree. The details are exactly the same as per the attached application and thus can you consider the application on this basis.

Yours Faithfully

Janice Cox
