

Appendix 1: European Site avoidance and mitigation checklist

This checklist must be completed and provided in order for the Local Planning Authority to validate any planning application for one or more dwellings. It sets out how an avoidance and mitigation package will be provided to remove any likely significant effect on a European Site.

All relevant boxes should be completed and the form must be signed. If signed by an agent, it is their responsibility to ensure that the applicant is aware of the commitment to providing a mitigation package, in the form of a financial contribution, the scale of which is currently not known.

Application details	
Site name:	
Site address:	76. STATION RD HAYLING ISLAND PO11 0EL

Recreational disturbance													
The proposed development would be within 5.6 km of Chichester and Langstone Harbour, which is a Special Protection Area and Ramsar site. As such, mitigation will need to be provided. The Council considers that mitigation provided in line with the Solent Recreation Mitigation Strategy (available at www.birdaware.org/strategy) is appropriate to the applicable planning applications. This would result in a mitigation package based on the table below. It will be necessary for a suitable avoidance and mitigation package to be provided in order for the Council to lawfully grant permission for applicable schemes. <table border="1"> <thead> <tr> <th>Size of units</th> <th>Scale of mitigation per unit</th> </tr> </thead> <tbody> <tr> <td>1 bedroom</td> <td>£346.00</td> </tr> <tr> <td>2 bedroom</td> <td>£500.00</td> </tr> <tr> <td>3 bedroom</td> <td>£653.00</td> </tr> <tr> <td>4 bedroom</td> <td>£768.00</td> </tr> <tr> <td>5 bedroom</td> <td>£902.00</td> </tr> </tbody> </table> Please note that a monitoring fee is attached, at 5% of mitigation cost. Please note that an administration fee of £20 per application is applied.		Size of units	Scale of mitigation per unit	1 bedroom	£346.00	2 bedroom	£500.00	3 bedroom	£653.00	4 bedroom	£768.00	5 bedroom	£902.00
Size of units	Scale of mitigation per unit												
1 bedroom	£346.00												
2 bedroom	£500.00												
3 bedroom	£653.00												
4 bedroom	£768.00												
5 bedroom	£902.00												
Please select one of the following options:													
I hereby confirm that the proposed development will include an avoidance and mitigation package in line with the Solent Recreation Mitigation Strategy.													
An alternative approach to avoiding and mitigating the recreational impact arising out of the development is proposed (please set out in more detail in a supporting document appended to this checklist).													
The site is located more than 5.6km from the Solent Special Protection Areas (this applies to only a small section of the Borough in Cowplain).													

66. For sites on agricultural land that are nitrogen neutral on-site or in other unusual circumstances, variations or different conditions may be necessary in order to conclude that there would not be any likelihood of a significant effect.
67. It is anticipated that there will be a requirement for developers to make a financial contribution to facilitate the delivery of a strategic mitigation package. It is possible that at the point of decision the extent of financial contribution will not be known. However, the Council is fully aware of the need for development to be viable and, if necessary, will part fund delivery of the Havant Borough Local Plan 2036 Nitrogen Mitigation Strategy to facilitate occupation of approved dwellings. If this is necessary, the Council will engage with external funding providers, including Homes England, in order to spread the cost of such provision.

Ongoing monitoring and next steps

68. It is considered that this position statement sets out a mechanism through which some certainty can be provided to developers, whilst fully protecting the Solent's European Sites from the significant effect that would otherwise arise through development. This position statement has been prepared using the best and most up-to-date scientific knowledge available and has applied the precautionary principle where appropriate.
69. The Council will monitor permissions that are granted under this position statement and the nitrogen load that they would create. This will make sure that as mitigation comes forward this 'banked' nitrogen can be addressed as the first priority. The Council will ensure that an appropriate scale of mitigation is in place prior to occupation of any permitted schemes. The use of Grampian Conditions gives the Council a tool which can be used definitively in this effect, albeit the Council will use all tools available to ensure that effectively completed homes are not stood empty whilst mitigation is finalised.
70. Monitoring will also take place of schemes which are able to achieve nitrogen neutrality or a deficit on-site. This will feed into continued nitrogen budgeting to inform the definitive mitigation strategy and the Havant Borough Local Plan 2036.
71. Moving forwards, the Council will continue to work towards a more definitive mitigation strategy. This should ideally be on a PUSH wider (or larger) basis. The Council will continue to positively and proactively work with its partner authorities, through PUSH, together with Natural England, the Environment Agency, Southern Water, Homes England and any other stakeholder in order to address this issue appropriately.

Water quality

There is existing evidence of high levels of nitrogen and phosphorus in the water environment with evidence of eutrophication at some designated sites. As such, there is considered to be a likely significant effect from residential (and similar) developments located anywhere in Havant Borough. As a result, an avoidance and mitigation package will be needed in order for the Council to lawfully grant any planning permission. The Council has published a Nutrient Neutrality Position Statement which sets out that it is possible to mitigate development in the short term.

The position statement highlights those developments which are expected to provide avoidance and mitigation on-site, thus resulting in a nutrient neutral development. It also sets out that, for any other applicable developments, the exact scale of avoidance and mitigation package (which would take the form of a financial contribution) is not yet known.

As a result, in order for the development to comply with the requirements of the Conservation of Habitats and Species Regulations and for the Council to lawfully be able to grant planning permission, it will be necessary to impose a grampian condition requiring the provision of an avoidance and mitigation package prior to the occupation of the development.

It would be the applicants risk as to whether to proceed with any development that is granted planning permission without the knowledge of the precise scale of the avoidance and mitigation package.

Please select **one** of the following options:

I hereby confirm that the proposed development will include an avoidance and mitigation package, in line with the Nutrient Neutrality Position Statement and confirm that I am content that a grampian condition is used to secure this prior to occupation.	
--	--

The proposed development would be 'nitrogen neutral'. A nitrogen budget is attached to this checklist (this option is particularly applicable to developments proposed on agricultural land)	
--	--

The proposed development is not nitrogen neutral and no avoidance or mitigation package is proposed (please note that planning permission could not lawfully be granted in these circumstances).	
--	--

Please select one of the following options to the right, then complete all boxes below

Signed by applicant

Signed by agent

By submitting this form to Havant Borough Council, the applicant is committing to providing mitigation packages, usually in the form of a financial contribution. If the top option for 'water quality' has been selected, the applicant specifically understands that the scale of the contribution is unknown at this time.

If an agent is signing on behalf of an applicant, it is the agent's responsibility to seek the agreement of the applicant to the commitments selected above as it will be the applicants who assumes the risk and responsibility upon the granting of any planning permission.
