Subject: Ref: APP/20/00180 FAO MRS J Clark RE TPO Application 182 Stakes Hill Road

Dear Mrs J Clark,

My name is Mike Briston and I am Mrs Dognini's tree surgeon. Mrs Dognini has asked me to liaise with you regarding the application to remove an ash tree on her property.

In my opinion the tree has been infected with Hymenoscyphus Fraxineus. Please find attached some pictures of the tree and a sketch of the rough position of the tree in the garden, as requested.

I haven't got specific pictures of any lesions as I have not climbed the tree, however they show the typical reactionary growth inside the canopy which goes along with this particular disease.

I understand that with the current situation this application process may take a while but I look forward to hearing back from you regarding this matter.

Sincerely,

Mike Briston
