Dear Sir/Madam,

As one of the least mentioned neighbours (and potentially one of the most affected) we have no current objection to the proposed extension as it is described in the 'Design and Access Statement' dated March 17.

In offering no objection, however, we stress that this is based upon the occupants and their agents adhering to the above plan. This did not happen in Ref B above when a 'small' overlooking dormer window became a 4metre wide window without our knowledge and gained retrospective planning approval. Events of this nature will be a constant source of worry for us until the extension is complete.

Yours faithfully,

R & PA Ferry
