

4 Woodbury Avenue, Langstone, Havant, Hants., PO91RH

5th October, 2016

Revised application for 1 Woodbury Avenue APP/1500897

To: Planning Services:

We wish to confirm the points made in our previous correspondence, re the danger of moving the entrance because it is the only refuge in, what has become a single lane road.

Our main contention is that the very large garage with multi purpose usage room over, is a euphemism for a large office space, used in conjunction with the two businesses which are being conducted from the premises. We would remind you that in the original report by your Mr Andrews, 29/10/2014, it was stated that "A good degree of external amenity space would be retained." There werer regularly 5-6 vehicles on the drive, even when there was no work taking place on the house.

The few parking spaces available in Woodbury Avenue are increasingly occupied by commercial vehicles.

Danielle and David Miles
