

Subject. Re Submission Of Planning Application APP/20/00137 25 Charlesworth Drive
Waterlooville PO7 6AX.

OBJECTIONS RAISED, [REDACTED]

The proposed development of Number 25, Charlesworth Drive, Waterlooville,
PO7 6AX, does not take into
Consideration the following.

A, Does not respect the immediate local neighbourhood's cluster of
bungalow's visual impact through design,
Likewise the characteristic's through architectural style/height/roof
form and topography
Of the street scape.

B, The visual make up of the proposed roof area from my prospective
of entering & leaving my property
Which is situated 25, Charlesworth Drive PO7 6AX, plus looking out
of the front
Windows would look out of character and stick out like a sore
thumb.

C, There is the added burden of car parking, it is obvious that the
adults due to occupy the dwelling
Will have motor vehicles like wise the owner of the property runs a
building company which uses
Several modes of transport which would incur "On Street Parking".
The aforementioned property faces
And is at the head of a road tee junction which can be somewhat
problematic at times, thus causing a hazard
To traffic. We have already encountered anti social parking which
has restricted the ingress and egress to
My property.
