Dear Ms Wells

Further to our reply yesterday to your three emails we did a site visit today and met Mr Carden who we had copied our reply.

Mr Carden's development is now up to eve's level and commented on our response to you that we should make it clear that the mobile home at 241 is to be used much as one would an extension to a dwelling house without being self contained.

It is presumed that you took advantage of our offer and paid a visit to site and can confirm that you are happy for us to follow that to No 27 Oakmont Drive.

Again without prejudice to the limit on time we are happy to add further to whatever you feel is needed.

Regards and best wishes for keeping safe and well.
