4. Description of the Proposal

Please describe the proposed single-storey rear extension.

A single story rear extension to be constructed from the existing rear boundary of the detached bungalow. There is currently a 2.5m rear extension that will be demolished and the new extension erected 8m from the original rear wall of the bungalow spanning the full width of the home. The eaves height will be 2.7m and the highest point of the roof lantern will be 3.5m.

Both neighbours to either side have rear extensions already so right to light won't be effected. (Shown on aerial site plan attached). There is no issue with boundaries and the new extension won't take up more than 50% of the surrounding land as it has a 100ft rear garden. It will be constructed in similar materials to the existing bungalow, which will consist of brickwork, white render and a flat roof with lantern. I have attached an elevation to show the proposed design and finish.

Is the property? (tick one only) ☒ (i) Detached ☐ (ii) Other

How far will the proposed extension extend beyond the rear wall of the dwelling measured externally? metres

What will be the maximum height of the proposed extension, measured externally from the natural ground level? metres

What will be the height at the eaves of the proposed extension, measured externally from the natural ground level? metres

Where the enlarged part will be joined to an existing enlargement of the dwellinghouse, please provide the total enlargement (being the enlarged part together with the existing enlargement to which it will be joined) for the following questions:

How far will the total extension extend beyond the rear wall of the original dwelling measured externally? metres

What will be the maximum height of the total enlargement, measured externally from the natural ground level? metres

What will be the height at the eaves of the total enlargement, measured externally from the natural ground level? metres
