

APP/18/00672 land off Westwood close Emsworth

Adrian Winnicott

Mon 13/08, 17:01

Dear Sir

We write to protest against the above development on the following grounds-

1. the site is close to the river Ems and therefore at risk of flooding which is why the plans got rejected in 2013
2. There is risk of polluting the river
3. There is no public transport in the location
4. Relocation of the footpath next to the river is potentially dangerous
5. The additional 116 cars in the area is not feasible because of narrow access roads and congestion
6. The Local draft plan already has identified sufficient sites for housing
7. The above site should be a green space protected for the future

Yours sincerely
