Planning Application APP/18/00151.

To Ms R Ballam,
28/2/18

Dear Sirs,

I've had a look at the application and it seems to be an unusually large building to go into a garden.
It will look similar to the main house, and when I walk my dog I will be able to see it, and so will everyone else who walks past.

I think the existing building looks out of place and I think this will also look out of place.

Can't it be designed so it fits into the character of the area?

I object to this application and hope it isn't built

Yours Sincerely

Carl Fowlie
