Subject: Planning application APP/12/01243
Importance: Normal

Dear Sir/Madam,

I refer to the above application, and wish to record my reasons for why this application should not be granted.

a) Highway and traffic safety, this application would add to the already disastrous parking in this area, thanks to the officer who dreamed up the yellow line policy in West Street, Brocklands, Brockhampton Road, Knox Road and Meyrick Road have become dumping grounds for outside employees of SSE, Swards, ARC, Hall's Taxi's and people seeking free parking to go to work in Portsmouth and surrounding areas.

Not all persons in Meyrick Road have the luxury of owning a garage, now unable to park outside their own property, by proposing this application we could find up to another 4 vehicles wanting to somewhere to park, especially if they have pickup trucks, 4 x 4, caravans or if they bring classic cars to repair.

b) if this proposal goes ahead, I believe that I will lose up 30% of what little sunlight we get here during the summer months, and would probably add to m electrical running costs, some thing I don't want to pay for.

c) This area has seen considerable development recently, with I assume further development of what is left of Kings Croft farm, these 2 properties are not necessary and only provide to increase the proposed builder's pension income. I see none of your committee live in this area and, therefore it is Ok to dump further properties here.

I believe this council should have purchased this building to provide storage for the council usage, sadly it would appear that money is driving this application.

I hope the Valuation Officer will be somewhat more accommodating with our applications for a rebate of council tax during the proposed building of these bugs of houses.

Yours sincerely,

Paul N P Meade
9 Meyrick Road.
