Your Ref. APP/17/00311

Dear Madam,

With reference to the above planning application that was approved with conditions I note from the drawings that a surface water drainage pipe that runs from Seacourt Rackets Club through my property and into the property that is under-development is not shown. There is neither any reference to it in the conditions and I am concerned that if it is not kept open or damaged during construction that it could back up and flood my property.

I trust you will look into this matter and make it a condition that the continued and safe flow of water via my property must be maintained

D.A.Earl.
