Dear Sir/Madam,

Re: The White House, Langstone Rd,
Havant.

It has been drawn to my attention that plans are being submitted to the Council for a large extension to the White House. Should I not have been informed of this application as I live ~~directly~~ behind the above mentioned property?

I would, however, like to make a protest against this application as it would appear to overlook my property and it has already had a 'guest suite' extension bringing it extremely close to my boundary. Adding further height to the building would be extremely invasive and destroy the privacy I at present enjoy.

Incidentally I would mention that the trees, with particular reference to the sycamore in the corner, cut out a great deal of light from the back of my home.

Yours sincerely,
[Redacted Signature]
