5. What Are You Applying For?

Are you seeking consent for works to tree(s) subject to a TPO? ☒ Yes ☐ No

Are you wishing to carry out works to tree(s) in a conservation area? ☐ Yes ☐ No

7. Identification Of Tree(s) And Description Of Works

Please identify the tree(s) and provide a full and clear specification of the works you want to carry out. Continue on a separate sheet if necessary. You might find it useful to contact an arborist (tree surgeon) for help with defining appropriate work. Where trees are protected by a TPO, please number them as shown in the First Schedule to the TPO where this is available. Use the same numbers on your sketch plan (see guidance notes).

Please provide the following information below : tree species (and the number used on the sketch plan) and description of works. Where trees are protected by a TPO you must also provide reasons for the work and, where trees are being felled, please give your proposals for planting replacement trees (including quantity, species, position and size) or reasons for not wanting to replant.
E.g. Oak (T3) - fell because of excessive shading and low amenity value. Replant with 1 standard ash in the same place.

Recently contacted a tree surgeon from Blendworth, I have been told the branches hang over seven metres. I would like the tree branches pruned back three metres to prevent the sap covering my land and car. This would also stop the acorns raining on my family and property therefore, preventing further damage. There is a specific thick dead branch that needs to be cut off because there is danger of it falling

due to bad pruning. This is and was a recommendation made by the tree surgeon.

7. Identification Of Tree(s) And Description Of Works continued ...

Oak tree, Prune back branches three metres.
Crown reduction.

• Would like to have the crown reduced to prevent the disadvantages from occurring.
• Also to help keep the tree well maintained.
• Damaging vehicles by covering cars in sap.
• Acorns falling causing damage to land and cars. Extremely painful when it lands on you.
• Attracting birds causing mess on paving.

Work needed to be carried out on the Oak tree opposite my house
