Dear Sir

Planning application, Wellington Way, Waterloooville, APP/18/00234

I am writing in support of my wife's objection to the planning application relating to a nine-storey block of flats in Wellington Way, Waterloooville.

I believe that a planning application relating to the former Wellington public house in London Road, Waterloooville, was rejected on the grounds that it was 'out of character with the area'. What could be more 'out of character' with a small town like Waterloooville than a nine-storey block, which will tower over the adjacent St. George's Church, as well as the surrounding area. Whilst I understand the need for affordable housing to be provided for local residents, this is the wrong plan in the wrong place.

My second objection to this monstrous (in every sense) plan concerns the parking of residents vehicles – even if half the flats have a vehicle, this would mean over one hundred vehicles to be parked in what is already a very congested area. Are the developers planning to take over the nearby car park for their residents, thereby reducing the parking options for the rest of us?

I hope that the Planning Committee see this for what it is, completely out of place, with the developers the only people who will gain.

Yours sincerely

Colin Bland
