Dear Sir

Proposal: Dropped kerb to the front of the property.
Site: 15 Fathoms Reach, Hayling Island, PO11 0RA.
APP/16/00359.

Thank you for your letter of 18/04/2016.

Please find attached a plan of the sewer records showing the approximate position of a public surface water sewer within the site. The exact position of the public sewers must be determined on site by the applicant before the layout of the proposed development is finalised.

Please note:

- No development or new tree planting should be located within 3.5 metres either side of the centreline of the public sewer and all existing infrastructure should be protected during the course of construction works.
- No new soakaways should be located within 5 metres of a public sewer.

Due to changes in legislation that came in to force on 1st October 2011 regarding the future ownership of sewers it is possible that a sewer now deemed to be public could be crossing the above property. Therefore, should any sewer be found during construction works, an investigation of the sewer will be required to ascertain its condition, the number of properties served, and potential means of access before any further works commence on site. The applicant is advised to discuss the matter further with Southern Water, Sparrowgrove House, Sparrowgrove, Otterbourne, Hampshire SO21 2SW (Tel: 0330 303 0119) or www.southernwater.co.uk.

Yours sincerely
