Stance: Customer objects to the Planning Application

Comment Reasons:

Comment: I would like to object to this application, being an adjacent neighbour to the aforementioned site.

I feel it is an over development of the site and it is not in keeping with this side of the road.

The planning application is for two bungalows and to clear the site of trees.

The definition of a bungalow is a low house with one storey, these are not bungalows. They are definitely two storey dwellings, which from the front aspect look exactly the same height as a two storey house.

The site has already been cleared of trees.

I also object to how close the side wall will be to my boundary, I have already suffered damage to my fence whilst they were clearing the trees.

Given the height of the dwellings and the fact they are going to be staggered, it is going to take virtually all the light from my garden and lounge. [REDACTED]
