Case Officer Emma Chisnall

Madam,

In reference to the Council's Notice of a Planning Application I put forward my observations and comments.

I am disappointed that there was no notice that the bungalow was to be extended above the ground floor, with living space having windows overlooking neighbouring properties. A retrospective application has now provided an invitation to comment which I provide below.

Overall, I consider the new structure to be too, prominent, overbearing to its neighbours and detrimental to the appearance of Fairlea Road.

The high level windows are at an angle to Fairlea Road, providing views looking down on my property. This I feel is detrimental to the privacy and amenity value of my property and also undesirable for visitors including grandchildren.

In objecting to the proposals I especially request that any windows and glazing carry measures to permanently preserve the privacy of neighbours.

Thank you for considering my representations.

Yours faithfully,

Barry Thomas
