Comment Details

Commenter Type: Complainant

Stance: Customer objects to the Planning Application

Comment Reasons:

Comment:I wish to object to the proposal to build 195 dwellings on the land between North Shore Rd and Sinah Lane.

The infrastructure of the Island cannot cope with this number of extra people and cars, est 400 additional cars (2 per household). Road access on and off the island is already very slow at peak hours and during sunny weekends. When the water main burst on Havant Rd on 14 June 2019 it was a disaster. I had to collect my [REDACTED] father from Day Centre in Leigh Park that afternoon, and the round trip took 5 hours. [REDACTED]

[REDACTED] Response time for emergency vehicles is continually affected by traffic problems and especially on that day.

In West Town we have recently been plagued with roadworks requiring single line working in Station Road and West Lane - already 6 weeks and no sign of ending. I shudder to think of the level and duration of disruption that the proposed development would cause.

Medical services on the Island are already severely stretched also, it is typically impossible to get a doctors appointment in less than 4 weeks.
