

6A Park Road,
Hayling Island.

19th August, 2018.

Mrs. D. Haywood,
Planning Officer,
Havant Borough Council.

Dear Mrs. Haywood,

Re: APP/18/00724 – Erection of 195 dwellings, Sinah Lane, Hayling Island.

I am writing to object to the above Planning Application on various grounds.

1) The traffic situation on Hayling is already horrendous, not just in peak hours. I use public transport a lot and have noticed that in the past couple of years travelling time has had to substantially increase because of the huge amount of traffic coming to and going from the Island at most hours of the day – there only has to be one small incident (car broken down or a problem on the bridge) and the whole Island is gridlocked for a great deal of time. I now find that I have to add at least an extra hour of travelling time if I want to get off the Island to get to anywhere else, and that is before these new dwellings are in place – I dread to think what the extra burden will be like for all of us.

2) The Medical Practices on Hayling are already stretched to their limit – if a routine GP appointment is required, there is a three week wait now – how on earth will they be expected to cope with the influx of all those extra people who will need attention of some sort or another?

3) This Island is gradually losing much of its green space – we are only a small area, surely we should be entitled to keep as much of it as we can? We have already had a lot of new housing that has been built recently but no new infrastructure has been added to assist people living here – it would make much more sense to take a step back and properly review the situation before our lovely Island is filled beyond capacity.

I would urge the Council to please consider the points I have raised when dealing with the Planning Application – this Island does mean a lot to our residents and we care about its future, thank you.

Yours sincerely,
