FURTHER OBJECTION TO THE APPLICATION

Dear Planning Officer,

Further to me note of 24th June, I wish to add the attachments and the below comments to my **OBJECTION**. These show the current view from the back of my house which would be ruined by the plans, and all privacy lost. It also shows an Oak tree behind 98 and 96 that should not be felled, it would be carnage and dreadful for an old oak to be disposed of so unnecessarily.

The other attachment shows the view from Brook Gardens to the NE of the E border of the proposal. Felling of the trees from 98 south would have a dramatic effect on the view of all in this part of Brook Gardens, not just those bordering the development. This cannot be acceptable. I notice this is one view that M and S did not bother to include in their planning proposal.

Many Thanks

Very Best

Roger
