

Dear Sir / Madam,

I am not happy with the whole situation of firstly changing the planning permission request from 2 houses and 5 flats to 9 flats and being informed by a neighbour two weeks before. This whole project does not give me any confidence. There is not adequate parking for the shops, and the issue with parking has never been addressed or resolved.

On the 18th March 2018 I highlighted the parking issue to Havant Council about the restricted access to my drive, and the solutions given to me was to contact the police as obstructive parking was an offence. Or to contact the parking hotline, but if this was the case we would constantly be on the phone.

I have been public spirited by reporting to the owner of this site that the compound was insecure on another occasion and they did the next day come to re-secure the compound, as youths again had been entering.

We have also been blocked in by the contractors off loading their digger, and at no time with both cars on the drive did they have any decency to see if we wanted to move, so we had to order a taxi to Havant station and a return which was a total disgrace. Then a few weeks ago when they were re surfacing the road in Hart plan Avenue where did they park to off load the machinery on a Sunday morning, yes right in front of our drive yet again. On both occasions this is totally unacceptable.

On refuse collection day it is a total nightmare down Pyrford Close as the cars are backed up in the Milton road causing gridlock as cars are unable to come down this road as it is a short cut for the school.

I asked someone to move on Saturday as they were going to park opposite, and he felt it was acceptable as he was only going to pick his pizza up !!!! When I forced the situation by turning the engine on and reversing he drove off at speed down Pyrford Close.

The above are only a few incidents of what we have had to endure over the past few years and you the Council need to give serious consideration to these traffic issues of where cars can park for the shops, or visitors to your new proposal as potentially there could be 18 additional cars.

Please see attached pictures.

Yours Sincerely
