Dear Ms Pickup,

Planning Application at Unit 2, 2St Marys Road, Hayling Island

I am writing to object to the planning application at the above address.

I feel this is an inappropriate venture for a residential road. This proposed new establishment will be disruptive and intrusive to resident's lives. The noise pollution will be unbearable for adjacent homeowners due to customers dinking outside, closing time patrons leaving, and lorries etc making deliveries to facilitate this establishment. There is also a total disregard for road safety. It is difficult as it is to park in St Marys Road due to the sorting office; this will only be made worse should this public house go ahead.

The outside eating area will seriously compromise neighbouring properties privacy as bedrooms and lounge windows are to the front of the building overlooking the site. This will cause more issues in the summer months, as windows won't be able to be opened because of the noise and unsociable behaviour that generally comes along with a public house.

I hope my concerns will be taking into consideration when deciding on this application for a bar/
public house
