Dear Sir/Madam

**Ref: APP/18/00407 -- Proposed building of a 4 bedroom house and 2 double garages, including car parking at Eastview, Manor Road, Hayling Island**

I strongly object to this for the following reasons:

My garden backs on to "Eastview" and for fifty years I have enjoyed the peace and privacy my garden brings, it is now a mature haven for the wildlife that regularly visit, foxes, squirrels, hedgehogs, frogs etc, even the slow worms are a welcome sight.

I enjoy the simple things in life and love nothing more than being in my garden soaking up the sounds of the variety of birds my garden attracts, especially the many sparrows that have taken up residence in the Hawthorn hedge at the rear of my garden.

In the proposed plans to build an additional 4 bedroom house in the back garden of East View, including 2 double garages and parking area so close to my garden, where allowed, it would greatly affect the enjoyment I now have, instead I would look out onto garages and be compelled to listen to the noise and smell the fumes of at least 6 or 7 family cars, plus employee's car, visitors cars and delivery vans coming and going throughout the day, all using one single driveway to turn into and exit out onto an already busy main road.

If this house were to be built I would be looking out across my garden onto it, instead of the natural outlook of trees and hedgerows I now have and love to see.

I have lived here for many years and seen most of the green fields taken for building, do not let the garden of Eastview end up the same way.

I feel that this is overuse of this garden to the detriment of the surrounding neighbours.

Yours faithfully
