Dear Sirs

Ref; Planning No.APP/16/01234

I am writing concerning the above, giving my reasons as to why I consider the above application be rejected.

1 The lane is very narrow near the plot in question

2 the lane has a lot of pedestrians including school children on their way to Westbourne Junior School, horse riders and walkers on organised walks (including walking for health)

3 When it rains heavily the water runs down the hill tending to flood the lane. The addition of the new houses in West Sussex at the bottom of Long Copse Lane has yet to seen.

4 I believe in the Allocation Plan of July 2014 it was stated that there was no need for more permanent gypsy and traveller sites until 2027.

I would like to repeat I comment I made on a previous planning application that there used to be a very good ditch along Long Copse Lane and we have fond memories of our children walking in them all the way to Westbourne but although the council have recently cleared them (quite well) in many places they have become filled or over grown this will therefore not help extra drainage problems .

I hope these points are taken into account when you consider this application
Yours Faithfully

Gina Reeves
