Widley  
Waterlooville  
For the attention of Mrs. Chisnall

Dear Mrs Chisnall,

Thank you for your letter of 4th April 2016. I had no idea, until receiving your letter that my neighbour was proposing this extension.

I write in connection to the above planning application. I have examined the plans and I know the site, however I am unable to support this.

As an immediate neighbour to the site of the proposed development I am of the view that this will have an impact on me and my neighbours' standard of living.

My specific objections are as follows

1 - the proposed development does not afford adequate privacy for all the occupants of the adjacent residential properties, particularly with regard to their and my right to the quite enjoyment of garden amenities.

2 - the physical space between the proposed dwelling and the existing boundaries is extremely restrictive and would present an overbearing and intrusive element to the neighbours at the north, south and rear of the property.

3 - the planning states that the proposed building, to the south side, will be developed to the boundary line. If there were to be any future maintenance then access would be required on my property.

4 - the planning application states that "no hedges will be removed OR pruned".

I have, on numerous occasions, had skips and other large machinery delivered to our property. Whilst not all drivers are competent the hedge does act as a buffer. If the proposed extension is built to the boundary line I feel that this restricts any future deliveries to our property.

I seek your assurance that this boundary hedge will remain intact.

I would therefore request that Havant Borough Council refuse this application on the above property and encourage the re-submission of a building design that is smaller and less obtrusive on neighbouring properties.

In conclusion I would like to request that, should the application be approved, the council consider using its powers to enforce controlled hours of operation that might make the duration of work more bearable.

The proposed site has a small frontage so I would ask that consideration be made about how and where construction vehicles and staff would gain access to the site for unloading and parking without causing a highway hazard or inconveniencing the neighbours.

I would be grateful if the council would take my objections into consideration when deciding upon this application

Yours sincerely
